

FIFTY YEARS AGO

It was the custom of our grandparents when anything was the matter with their stomach, liver or kidneys, to take a remedy composed of the right kind of roots and herbs, and by so doing lived to a ripe old age. It is also true that the Shakers, who have always depended upon the life-giving juices of leaves, roots and herbs, are long-lived people. The roots and herbs of which SEVEN BARKS is principally composed were gathered by the Shakers for many, many years, then scientifically blended, and SEVEN BARKS has become famous as one of the most reliable remedies for indigestion, constipation, liver, kidney and stomach disorders.

Dull pains in the back, often under the shoulder blades, poor digestion, heartburns or flatulencies, sour risings, yellow skin mean liver troubles, and you should take SEVEN BARKS; it will relieve you, as it will make the liver active, tone up the digestive organs and cause the bowels to act normally.

SEVEN BARKS is not a cure-all, but a very reliable remedy that will act once not on the liver, stomach and bowels, sets them to right, tones and strengthens the general health.

If you want to get the greatest efficiency out of your body, eat and keep your life, take SEVEN BARKS. At drugists, 60 cents a bottle. Don't put it off; get it today.

Musterole Loosens Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. Millions of jars are used annually for bronchitis, croup, stiff neck, asthma, neuralgia, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, colds of the chest (it often prevents pneumonia). See and GSC jars; Hospital size \$3.00

1908 he was admitted to a party led northward by Peary, who later was to discover the North Pole. In 1910 he was one of the staff on the Cabot expedition that explored Labrador. In 1913, with the backing of the American Museum of Natural History, he led a party of scientists on an expedition that spent four years in the Arctic region and brought back much of the highest value to naturalists. Mr. MacMillan is a native of Provincetown, Mass. There he first got a love of the sea and of exploration which has never ceased to lure him on to adventure. He received his education at Bowdoin College and at Harvard University and for a time followed the career of a school teacher.
